Profile

Software Engineering student and Technical Co-Founder of Demarky.ai, an AI-powered SaaS platform, with hands-on experience building scalable full-stack systems, REST APIs, and cloud-native infrastructure (AWS, Docker). Skilled in system architecture, real-time data pipelines, and integrating AI into production features. Former Project Manager at Optima Junior Enterprise, combining engineering depth with team leadership and delivery ownership.

Education

Engineering Degree in Software Engineering – Faculté des Sciences de Tunis	2024 – 2027
Integrated Preparatory Cycle, Mathematics & Computer Science – Faculté des Sciences de Tunis	2022 – 2024
Baccalauréat, Mathematics (High Honors) – Lycée Manzah 6	2021 – 2022

Professional Experience

Technical Co-Founder & Software Engineer – Demarky.ai	Aug 2025 – Present
---	--------------------

- Designed and developed an AI-powered SaaS platform automating website creation, from architecture to deployment.
- Built full-stack features with React and integrated REST APIs across backend services.
- Contributed to technical design and architecture decisions for a scalable, production-facing product.
- Integrated backend services and AI-powered features using Supabase.

Software Engineering Intern – Sellmax	Jun 2026 – Jul 2026
---------------------------------------	---------------------

- Designed and developed an online booking/reservation system integrated into the company’s web platform, from data modeling to deployment.
- Built the client-facing booking widget, host-side availability/services management, and a booking dashboard (list and calendar views).
- Implemented serverless backend functions (Supabase Edge Functions) for slot availability, booking creation, cancellation/rescheduling, and email notifications.

Summer Internship – Banque Centrale	Jun 2025 – Jul 2025
-------------------------------------	---------------------

- Developed GestioPro, a strategic project-management platform handling real production data at scale, using Next.js and Spring Boot.
- Designed and integrated REST APIs, contributing to improved application architecture and reliability.

Project Manager – Optima Junior Enterprise	2024 – 2025
--	-------------

- Managed IT projects and coordinated cross-functional teams.
- Handled client follow-up and delivery tracking.

Web Development Internship – Tunisian Cloud	Jun 2023
---	----------

- Developed web features using HTML, CSS, JavaScript, and Bootstrap.

Projects

- **Demarky.ai** (React, Supabase) – AI-powered SaaS platform that automates website creation.
- **BriefFlow** (React, TypeScript, n8n, Ollama, Express, PostgreSQL/Prisma) – AI-powered intake and proposal generator with automated briefs, lead scoring, and private admin review.
- **GestioPro** (Next.js, Spring Boot, SQL) – Project-management web application for the Central Bank of Tunisia.
- **Exam Planner** (Angular, Spring Boot, PostgreSQL) – Intelligent platform automating exam scheduling.
- **Movie Mobile App** (Flutter, Firebase) – Authentication, favorites, and user recommendations.
- **Real-Time Data Pipeline** (Python, Node.js, Kafka, Docker) – Distributed pipeline for streaming data processing.
- **Cloud Architecture on AWS** (VPC, EC2, ECS, RDS) – Secure, scalable cloud-native architecture on AWS.
- **Plant Disease Classification** (Python, ML/DL) – Image classification model for plant disease detection.

Technical Skills

Programming: Python, JavaScript, TypeScript, Java
Frontend: React.js, Next.js, Angular, HTML, CSS, Vite
Backend & Distributed Systems: Node.js, Spring Boot, REST APIs, Kafka
Cloud & DevOps: AWS, Docker, Kubernetes (notions), Linux, CI/CD
Databases: SQL, PostgreSQL, NoSQL, MongoDB, Supabase
Software Engineering: Data Structures & Algorithms, Software Architecture, OOP, Clean Code, Git, GitHub
AI: Machine Learning, Deep Learning, LLM Fundamentals, AI-assisted coding tools
Soft Skills: Teamwork, Communication, Leadership, Project Management, Problem Solving

Certifications

- AWS Certified Cloud Practitioner (CLF-C02)
- NVIDIA – Fundamentals of Deep Learning
- AWS Certified Solutions Architect – Associate (in progress)
